Minecraft Pocket Edition, also known as Bedrock Edition, is the version of Minecraft, which can be played on devices, such as mobile phones, tablets and consoles, such as Xbox and PlayStation. Minecraft PE is largely the same as the Java Edition game, except for a few changes here and there. A real benefit of playing on Minecraft PE, however, is the ability to cross-play on all platforms that support it. So now that you and your friends are ready for some minecraft PE multiplayer action, it's time to delve into the world of Minecraft servers. Minecraft PE servers, which have a ton of different game modes, as well as custom content bucket tasks, are the best way to explore the game in ways you might not have experienced before.5 best Minecraft PE servers in 2020Here are the five best Minecraft PE servers you can check out.1) NetherGames NetherGames is one of the largest servers for Minecraft PE, which has a fairly active community for users, as well as regularly updated content to attract more players and more.
